STEWARTSTOWN SCHOOL DISTRICT

# WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Stewartstown qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on Tuesday, the 8th day of March, 1966, at 10:00 o'clock in the forenoon at which time the polls will be opened, followed by the business meeting at 2:00 o'clock in the afternoon, to act upon the following subjects:

1. To bring in your ballots for the election of School District Officers to be elected by ballot for the School District of Stewartstown for the ensuing year(s).

2. To determine the salaries of the officers and to fix the compensation of any agents of the district.

3. To hear the reports of Agents, Auditors, Committees, or Officers chosen and pass any vote relating thereto.

4. To see what sum of money the District will vote to raise and appropriate for the support of schools for the payment of salaries for school district officials and agents and for the payment of the statutory obligations of the District.

5. To see if the district will vote to accept the provisions of Title I, Public Law 89-10 (Elementary and Secondary Education Act of 1965), and to appropriate such funds as may be made available to the district under said Federal Act for such particular projects as may be determined by the school board. Further, to see if the district will authorize the school board to make application for such funds and to expend the same for such projects as it may designate including cooperating with other school districts.

6. To see if the district will vote to accept the provisions of Title III, Public Law 89-10 (Elementary and Secondary Education Act of 1965), and to appropriate such funds as may be made available to the district under said Federal

Act for such particular projects as may be determined by the school board. Further, to see if the district will authorize the school board to make application for such funds and to expend the same for such projects as it may designate including cooperating with other school districts.

7. To see if the district will vote to authorize the school board to make application for and to accept, on behalf of the district, any or all grants or offers for educational purposes which may now or hereafter be forthcoming from the State of New Hampshire and/or United States.

8. To transact any other business that may legally come before this meeting.

Given under our hands at said Stewartstown this 7th day of February, 1966.

Stewartstown School Board

# Superintendent's Report

**To The School Board and the Citizens of the School District of Stewartstown**

FOREWORD

If the age old saying "the proof is in the pudding" still holds true, and it is strongly suspected that it would be extremely difficult to come up with anything the contrary, then it would seem to follow that possibly a brief look at two of the outcomes attributed to our overall educational effort provide opportunity for comparison. The two areas we have particularly in mind, the technological and the sociological, in so far as performance is concerned, furnish perhaps as contrasting pictures as could be chosen. Certainly, from the standpoint of the utilization of know how in the former, no matter in what direction we may look, as compared to that of a decade ago, our accomplishments have been truly phenomenal. We are told that, so tremendous has been the acceleration of the progress made during this short period of time, what has been accomplished exceeds even that of the whole previous century. And now to actually witness what is taking place in our present day space program is almost beyond comprehension.

To turn now from the first of the two pictures we are to examine to look at the second, we are struck with the contrast of the hue between the two. This second one, which has to do with how we get along with our fellowmen, does not have the luster and the definiteness that stands out so eminently in the first. It jolts us into a greater awareness of that which every single one of us very well knows, whether or not admitted, that it is one matter to determine what things can do and in getting them to do it, and that it is quite a different matter to determine what we can or should do and in getting us to do it. The distance across this wide gap between really knowing and actually doing, considered either individually or collectively, has been narrowed little if any down through the many years. How to bring these two parallel fields of endeavor nearer together is still our greatest unsolved problem, and should constitute our major educational objective. The big question is, will we ever acknowledge this grave responsibility that is ours and really face up to the challenge? Past circumvention causes one to wonder.

## TEACHERS

Of the three new teachers employed this year, one is at the West Stewartstown and two are at the Hollow Elementary School. At the former school Mrs. Marion P. Dowse, who received her training at Lyndon Normal School and who is a veteran teacher with many years of experience in Vermont, teaches Grades 4-5. At the latter school Mrs. Elizabeth C. Goodwin, who received her training at the same school as did Mrs. Dowse and who is also an experienced teacher, teaches Grades 1-4. Mrs. Sylvia M. Hibbard, a graduate of Plymouth Teachers College, and who is returning to teach in the same school after being away for a year, teaches Grades 5-8. The two teachers at the West Stewartstown School who have returned to work with us again in the district this year with respective Grades taught are Mrs. Cleora M. Richardson 1-3, and Mrs. Marcia A. Pond 6-8.

## SCHOOL NURSE — HEALTH

We are very much pleased to report that in addition to the vitally important work customarily done by our school nurse in safeguarding the overall health of our children through the conducting of periodic checkups, physical examinations, and various clinics that a beginning has been made in dental care this year. This has been brought about by every district in the supervisory union taking advantage of a program sponsored by the State Department of Health and Welfare wherein up to a specified limit funds raised by a local school district are matched dollar for dollar for the care of children's teeth. Present plans are to expand this much needed service next year.

## MAINTENANCE — REPAIRS

Although it has been a relatively short time since their installation at the time of the construction of the Hollow Elementary School Building in the summer of 1959, due to the serious deterioration that has taken place since that time, it has been necessary to make extensive repairs and replacments in both the heating and water systems during the past year.

At the West Stewartstown Building extensive renovations were made in the room occupied by the first three grades. Included in the work done was the replacement of the large outside windows on the south side of the room with smaller ones, and the lowering and replacing of the former plaster ceiling with an acoustical tile one.

In addition to the major repairs and renovations made listed above, a manhole was installed in the school grounds on the west

side of the Hollow School to take better care of the excessive flow-off of water which occurs during heavy showers, and quite exetnsive interior decorating was done in the West Stewartstown Building including the painting of the three porch floors, entire ground floor except in the boiler room, walls and ceiling in the School Lunch Room, and the walls and ceiling in the room occupied by Grades 6-8. New window shades, also, were purchased and put up in the new windows in the room that was renovated, and in the windows in the front of the building.

Such other repair work as was done on grounds and in building was general in nature and in keeping with the long standing policy of keeping school property in a good state of maintenance.

## SCHOOL LUNCH PROGRAM

Without question, of all the programs conducted by the schools up and down the length and across the breadth of our State, there is none that contributes so materially to the overall physical well being and happy life of the boys and girls enrolled in our schools as does the School Lunch Program. Especially is this true of the programs conducted in the smaller schools, as is done in the West Stewartstown School, where it is usually the only one outside of the academic that is carried on for any length of time during the school year. The hard and diligent work of the operator, Mrs. Floris Ladd, plays no small part in the success of this local program.

## ENROLLMENT AND ATTENDANCE

For the second consecutive year the total enrollment of 127, West Stewartstown 78 and the Hollow 49, is larger than it was the preceding one, as it was 120 a year ago at this time. Enrollments for the respective preceding eight years, beginning with year before last, show counts of 110, 132, 120, 124, 113, 112, 113 and 117. The average percentage of attendance last year on the West Side of the district was 96.49 while on the East Side it was 94.43. The total number of tardinesses during the past year of these schools taken in the same order was 42 and 8.

## TUITION PUPILS

The number of pupils presently enrolled in schools outside the district of 70 is the largest that it has been in ten years since it was 61, 62, 55, 47, 47, 39, 45, 37, and 35, respectively for each of the previous nine years. Of the number of pupils for which the district is paying tuition for the current year, 24 are at Colebrook Academy, 44 are at Canaan High School, Canaan, Vermont, and 2 are at the Colebrook Elementary School.

## NOTES ON THE BUDGET

It will be noted upon examination of subsequent pages in this report that the School Board's Budget of $94,653.00 for 1966-67 is again somewhat larger, as was the case last year, than is the one recommended by the Budget Committee of $94,153.00. In contrast to these respective budgets, the ones submitted for consideration for the current year were $91,462.00 and $90,512.00. Next year's estimated income of $29,400 leaves $65,253.00 or $64,753.00 respectively to be raised by taxes by the town depending upon which one of the proposed budgets is adopted. Provision for increases in salaries, transportation, and in supervisory union costs, for the most part, explain the increase in the budget.

## CONCLUSION

As has been done many times previously, I wish to express my sincere and deep appreciation to the members of the School Board, parents, teachers, and citizens for all the assistance and cooperation received as we have worked together down through the years to provide and maintain high standards in our schools.

Respectfully submitted,

ERNEST B. DANA

Superintendent of Schools

The Starred items are required by law to be raised as determined by the proper authorities. The Retirement Board assesses the amount of Teacher's Retirement and the Federal Government determines the rate of assessment under the Federal Insurance Contributions Act. A relationship which takes into consideration school membership and assessed valuation determines the proportionate share of the salaries paid by each district for personnel employed by the Supervisory Union.
